Welcome to Tender Care Pediatrics!

We are honored that you have chosen us to serve as your child's pediatric care provider.

Please accept this Health Care Folder for your child and keep it safe. We hope that you will find it useful in organizing all of your child's health related information, including the latest measurements at each visit, the immunization record, as well as medication and problem lists. At each scheduled check-up (well visit), you will be receiving additional packets of information tailored for each visit, which can then be added to your child's folder for safe keeping and easy accessibility.

In addition, enclosed with this welcome letter please find the following:

1. Registration materials—Please fill out these forms accurately prior to your child's first appointment. Our receptionist will be happy to collect these forms at your first appointment.
**Please note that it is extremely important for you to add your child to your primary medical/health insurance policy within thirty (30) days of your child's birth to avoid unnecessary billing charges. Also, if you have an HMO plan, you must specifically choose us as your child's primary care provider.*
2. A newborn care booklet, "Caring For Your Baby."
Generously provided by Ross Products Division, Maker of Similac Brand Products
3. A practice brochure, which describes some key aspects of our office.
4. Your first packet of information, relating to newborns.

Please call our office at your earliest convenience following your child's birth to make an appointment. Typically, newborns are seen within one week of being discharged from the hospital, especially if you are breastfeeding.

The birth of a child is truly a miraculous and exciting time. Accordingly, there are a myriad of questions and concerns that you may have during this time. It is our privilege to provide you and your family with professional, 'tender-loving' care.

Sincerely,

The Tender Care Pediatrics Family
